THE REAL CURE use traditional curing, air drying & smoking techniques to make exceptional British charcuterie. Meat is the most important ingredient in charcuterie. Their award-winning range of cured meats is produced using free range native breed pigs, reared less than 10 miles away and sustainably sourced wild venison from Dorset. The pigs produce wonderfully marbled meat with just the right amount of fat - light-years away from your supermarket pork. The salami, chorizo and air dried hams are made using traditional artisan processes of smoking, curing and air drying.

Five charcuterie platter is 200g and includes, Pink peppercorn & purbeck cider, chorizo picante, venison salami, coppa, white pepper & fennel salami. This should give you 6 portions

PLANT BASED

Rubies in the Rubble make a delicious range of ketchup from ingredients that would otherwise be thrown away, often for being simply the wrong shape, size or colour.

50% of the sugar is replaced with surplus apple and pears, as well as tomatoes. Every 100 litres of their ketchup rescues 41kg of unsaleable pears – what is not to love about that!

FLAVOUR

If it ain't broke, don't fix it. A recipe that truly delivers that balance of sweetness, umami, salt and vinegar that you just can't dip a chip without. If you don't believe us - try it! This award-winning ketchup consistently beats the world's best in blind taste tests, and converts even the biggest sceptics.

INGREDIENTS

Tomatoes, Pear, White sugar, Spirit Vinegar, Salt, Spices.

HOW WE STACK UP?

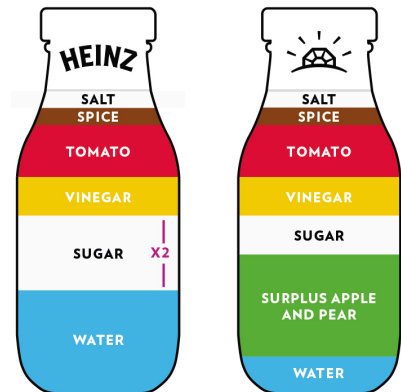

In this recipe, we've used surplus fruit that would've otherwise gone to waste. By using rescued pears as well as tomatoes, we've packed in twice the fruit and reduced the added sugar by 50%.

IMPACT

Every 100 litres of this product rescues **41 kg pears** (that's around 343 pears!)

The CO2 equivalent of this is 17kg which is the same as driving 145 miles in a car!

ATTRIBUTES

100% natural

made with surplus fruit

twice the fruit

half the added sugar

vegan

gluten free

Rubies in the Rubble make a delicious range of condiments from ingredients that would otherwise be thrown away, often for being simply the wrong shape, size or colour.

50% of the sugar is replaced with surplus apple and pears, as well as tomatoes. Every 100 litres of their ketchup rescues 41kg of unsaleable pears – what is not to love about that!

WILD FARMED FLOUR

The story begins in a field in France, where Andy Cato, one-half of the iconic duo Groove Armada, sold his music rights to buy a farm after reading about the horrors of the industrial food system. For years, he toiled, tested, and developed farming methods that now underpin the Wildfarmed Regenerative Standards.

Fast forward to 2018, and Wildfarmed was formed when Andy joined forces with Edd Lees and George Lamb to found a business designed to transform lives and landscapes by producing delicious, healthy, and regenerative flour, bread, pizza, and everything in between.

Wildfarmed flour is made with a blend of over 8 varieties of British and French wheat that are selected for their ability to thrive in a regenerative system whilst achieving the protein quality needed to give our flour both flavour and function.

Plain Flour

There's nothing plain about this flour.

Okay, this is technically plain flour but its also a s mash-it-out-the-park all rounder. You want to make melt in your mouth crumbly biscuits, light and airy shortcrust pastry, chewy cookies or fudgy brownies? This is the go to. We spoke to some of the chef's we work with who use this flour and they love it for batters and sauces too - told you it was an all-rounder.

Self Raising Flour

"A soft, light self-leavening flour used for biscuits, puddings and sponges. There's nothing more that we love than a flour who can do it on her own.

Raising puddings, pancakes, scones and sponges to become super soft, fluffy and feather-light, we bow down to this legend. This Wildfarmed flour is made with a blend of over 8 varieties of British and French wheat that are selected for their ability to thrive in a regenerative system whilst achieving the quality needed to give our flour both flavour and function."

White Bread Flour (T65)

"Simply the best - Wildfarmed Bread Flour

Okay look at this CV: versatile, reliable, best-seller, works for sourdough, yeasted breads, baps, buns, rolls, as a base to add wholemeal or brown, name a bread, this flour has got it.

WILD FARMED FLOUR

Pizza Flour

*Built to stretch and hold. Perfect for golden crusts
Makes the best regenerative pizza you're ever going to have - a JOY to work with, built to stretch, but also hold form, and create the most crunchy, golden crusts. This Wildfarmed flour is made with a blend of over 8 varieties of British and French wheat that are selected for their ability to thrive in a regenerative system whilst achieving the protein quality needed to give our flour both flavour and function*

Wholemeal Flour (T150)

100% unrefined for the most malty, nutty flour on the market. Healthier and high in fibre.

Fine Dark Brown Flour (T130)

A finely ground brown flour, full of fibre, perfect for pastries, pasta and pies. Finely ground, but still full of fibre, this flour is number one when it comes to that desire to add that wholemeal depth and flavour to pastries, cookies, cakes and pasta whilst still having achieving that all important lightness for your bakes.

Patisserie/Pasta Flour (T55)

*Delicate and light - its our beautiful Patisserie Flour.
Milled to be smaller, finer in texture and whiter in colour
Patisserie flour knows how to make a scene.
Featured in such products as choux, puff, milk bread,
Patisserie even has the audacity to excel as a pasta flour.*

Rustic White Flour (T80)

*"The country belle of the crew - Rustic White
Similar to our White Bread Flour but the country version,
Rustic isn't about big city, bright lights, rustic is about letting us see her roots, she's from the country, didn't you know? With flecks of bran run throughout the flour, rustic has amazing flavour and aroma. We like to use rustic for distinctively delicious loaves, rolls and baguettes.*

Wyfe of Bath takes its name from Chaucer's Canterbury Tales and, like the tale, when you cut into a Wyfe of Bath you will get a taste old England.

Merry Wyfe of Bath (v) 1.5kg
Made with our Wyfe of Bath curds which are pressed and then washed in cider every other day for four weeks (hence the name 'Merry' Wyfe!). The cider is made here by Graham Padfield from organic apples harvested on the farm. This cheese has a distinctive pungent orange (edible) rind and a rich, creamy texture typical of our cheese

Bath Soft 250g
This square cheese is soft and yielding with a white bloomy rind, once cut into it reveals an ivory coloured interior. The flavour is mushroomy and creamy with a hint of lemons. It comes wrapped in parchment paper with a red wax seal. This Cheese dates back to the time of Admiral Lord Nelson who, in 1801, was sent some by his father as a gift. It was recorded that Nelson's sweetheart was 'gratified' by the flavour of this cheese!

Bath Blue 1kg appx
A classic blue veined cheese made from the milk of our own organic cows. Ripened for eight to ten weeks to give a creamy blue veined taste.

Pave Cobble (Ash ewe's milk)

200g

A lactic style Ewes milk. This cheese is in the shape of a flat-topped pyramid. It has a creamy slightly citrus flavour and should show some surface ripening unless it is allowed to dry as it ages. MOZZARELLA & BURRATA

Since Jody Shekter closed his Laverstoke Park Buffalo operation we have been searching for a British Buffalo replacement. We discovered **The Buffalo Farm**, endorsed by Gordon Ramsay and Nick Nairn.

These Buffalo actually eat better forage than their Italian cousins & surprise surprise live outdoors, Scottish weather permitting!

The Buffalo Farm is Scotland's first and only producer of Buffalo Mozzarella, lovingly made with milk from their own herd of Water Buffalo on their farm in the Kingdom of Fife. What they are most proud of is the quality of Buffalo Mozzarella they have achieved. They visited many of the top mozzarella farms in Italy and Ireland, they knew how high the bar was set and were determined to create a product that could challenge the very best. And we think they have achieved just that. Their Buffalo Mozzarella is sumptuously creamy, full of flavour with a wonderfully soft texture - just the way it should be.

Dorset Natural strained Yoghurt (Greek Style) 2.4kg **Cribbs Farm, Dorset**

We think this is the best yoghurt in England

There are only two ingredients in this yoghurt - milk and live bio cultures. For every litre of yoghurt, we start with over three litres of milk and after adding carefully selected cultures (including probiotics), it is strained using traditional methods to create a thick, creamy texture packed with protein.

Every morning the milk is pumped through a filter, the milk is then heated to pasteurise it and to denature the whey proteins and make them attach themselves to the casein proteins. Put simply this is how the valuable proteins are retained through the straining process.

The milk is then cooled and the carefully selected Dorset yoghurt strained live bio cultures are introduced. After a thorough mix, they are left to get to know each other, this is when the magic happens. Once set, the yoghurt is ready for the most important part of the process, the straining.

Using the traditional method, the mixture is poured into cloth bags and hung up to drain off the whey (mainly water and lactose). This leaves the desired luxurious creamy texture and the yoghurt can now transferred to the filling machine

The finished pots are stacked and stored in the cold room where they dream of being released into the wild and meeting up with a nice fruit filling or nutty companion.

GELATO/SORBETS

Ice Cream Union produce gelato and sorbets for many of London's top restaurants, as well as some of the city's most influential chefs.

This might be produced in London but it is made using West Country Jersey cream and milk from Ivy House Farm in Somerset.

To produce ice cream that is unique, true to flavour and tastes amazing, they focus a lot of time on ingredients, whether hand-selecting the best Sicilian blood oranges at peak season or making their own honeycomb.
